Q23: [SPLIT I/J] Donald Trump was recently indicted by a federal judge on charges related to his involvement in the events of January 6, 2021. Which comes closest to your view:

	Total	California	Texas	Florida	StrongGOP	LeanGOP	FreqVoter	LessFreqVoter	WillVotePrimary	MayVotePrimary
Trump encouraged the January 6 rioters and attempted to stop the certification of the election results. He should be held accountable, even if that means he is convicted of a crime	22	24	22	19	20	24	16	28	19	31
Trump encouraged a political protest, but he did not encourage the riot or stop the certification, and I don't think he should have been charged with any crimes	37	42	31	31	31	44	36	38	37	39
I do not believe Trump was involved at all with the January 6 rioters, Democrats are on a political witch hunt and I believe Trump is innocent of all charges	41	35	47	50	49	32	47	34	45	31

Q24: [SPLIT I/J] The District Attorney of Fulton County, Georgia recently indicted Donald Trump for attempting to interfere with the 2020 presidential election in Georgia. Which comes closest to your view:

	Total	California	Texas	Florida	StrongGOP	LeanGOP	FreqVoter	LessFreqVoter	WillVotePrimary	MayVotePrimary
Trump encouraged state and county officials in Georgia to change election results and he should be held accountable, even if that means he is charged with a crime	22	23	18	19	21	22	17	27	19	29
Trump was upset about losing Georgia, but he did not encourage anything illegal, and I don't think he should be charged with any crimes	32	32	33	29	27	37	31	33	31	35
Trump was right to question the Georgia election results, he was probably right that there was fraud and we should investigate the voter fraud issue	46	45	49	52	51	40	52	40	50	36

METHODOLOGY STATEMENT

The Univision Noticias poll interviewed 1,401 Latino registered voters nationwide from September 9 - 19, 2023. Full sample estimates have a margin of error (MOE) of +/- 2.6 percentage points. The poll includes an oversample of 759 Latino Republicans (MOE +/- 3.6 points). This oversample is drawn from those who indicated that they intend to vote in Republican primary contests in 2024. The final sample was weighted to match the known demographic characteristics of Latino registrants based on data from the U.S. Census CPS as well as from national voter files. More precisely, respondents were weighted to provide representative balances across a range of variables, including state of residence, gender, age, education, nativity, ethnic origin, and partisanship. Respondents were randomly selected and contacted through a variety of modes, including live telephone call, text-invite, and email. Some respondents were from online panels matched to the voter file. Respondents completed their surveys on the phone with a live interviewer or online via the web. Both phone and web-based interviews allowed respondents to complete the survey in either English or Spanish, at their discretion. The survey was overseen by Univision director of polling Dr. Sergio Garcia-Rios and designed and implemented by BSP Research and Shaw & Company Research.
